\*Times were adjusted to take into account course deviations by certain teams. We appologize for the discrepancy in time and acknowledge the failure on our part to communicate racer direction at a specific point on the biking course. This allowed racers in the H-Core division to take one of two directions. Clearly this creates variable times and we have done our best to adjust accordingly. The best solution we found was to communicate with teams in order to confirm their exact route. We were only able to communicate with several of the top teams vying for the first through third places, although we were unable to find Team: Turtle Pacers or Team: Birtell in order to determine their exact route and thus unable to rank them in the top three. Again, we sincerely appologize for this mistake.
